AIM:- Write the process of creating IBM SmartCloud account.

PROCEDURES:

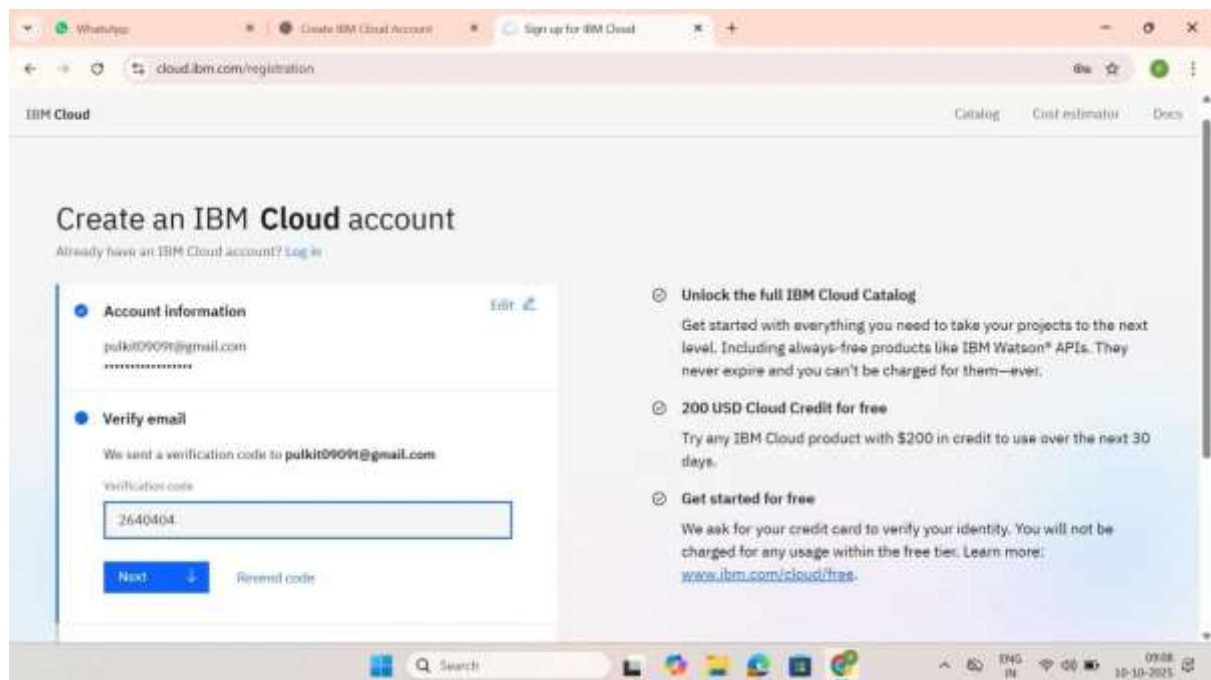

Step 1: Open your web browser and go to the link <https://cloud.ibm.com/registration> to create an IBM Cloud account.

Step 2: Enter your email address and password. You can also sign up using your Google or Red Hat account. Click on Create Account to continue.

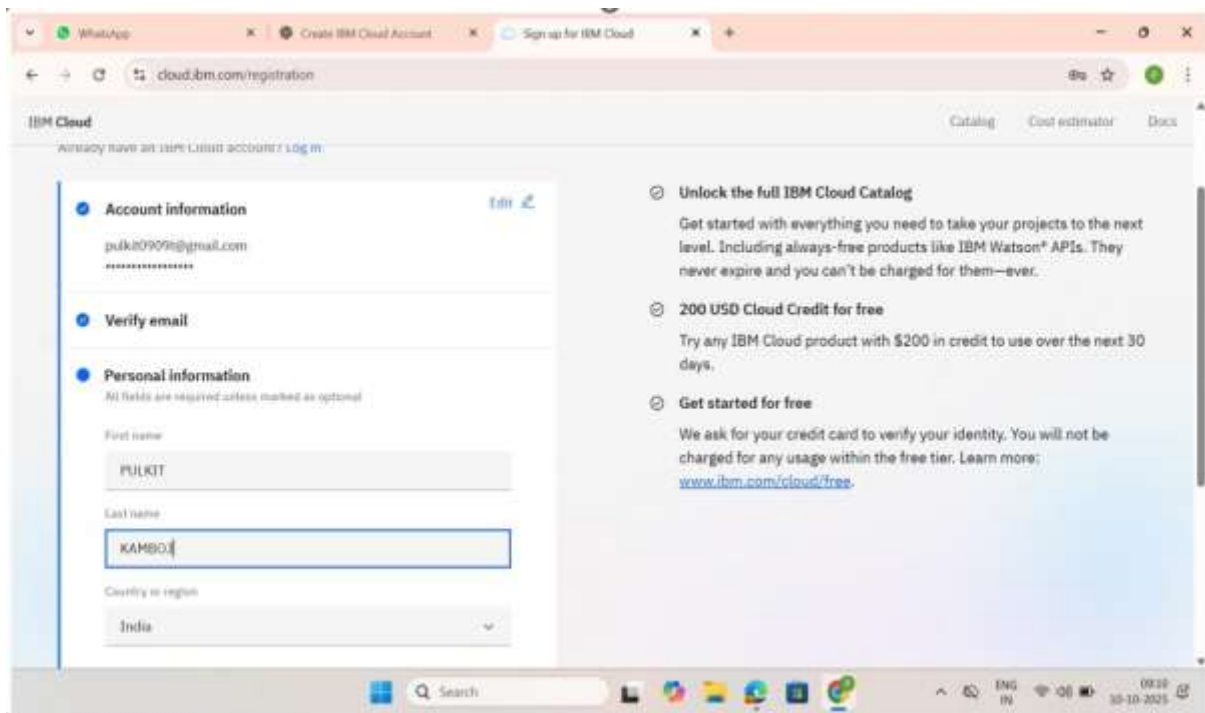

The screenshot shows the IBM Cloud registration page. The 'Account information' section is active, displaying the email 'pulkit0909@gmail.com' and a masked password. There are buttons for 'Sign up with Google' and 'Sign up with Red Hat'. To the right, there are three bullet points: 'Unlock the full IBM Cloud Catalog', '200 USD Cloud Credit for free', and 'Get started for free'. The 'Next' button is visible at the bottom of the form.

Step 3: A verification code will be sent to your registered email address. Enter the **verification code** in the given box and click **Next** to verify your email.

The screenshot shows the IBM Cloud registration page at the 'Verify email' step. It states 'We sent a verification code to pulkit0909@gmail.com'. A text box contains the verification code '2640404'. There is a 'Next' button and a 'Resend code' link. The right side of the page remains the same as in the previous screenshot.

Step 4: After verification, enter your **personal information** such as **First Name**, **Last Name**, and **Country/Region**. Click **Next** to continue.

The screenshot shows the IBM Cloud registration page at cloud.ibm.com/registration. The 'Personal information' step is active, with fields for First name (PULKIT), Last name (KAMBOJ), and Country or region (India). The page also displays benefits of the free tier, such as 200 USD Cloud Credit and access to the full IBM Cloud Catalog.

200 USD Cloud Credit for free

Try any IBM Cloud product with \$200 in credit to use over the next 30 days.

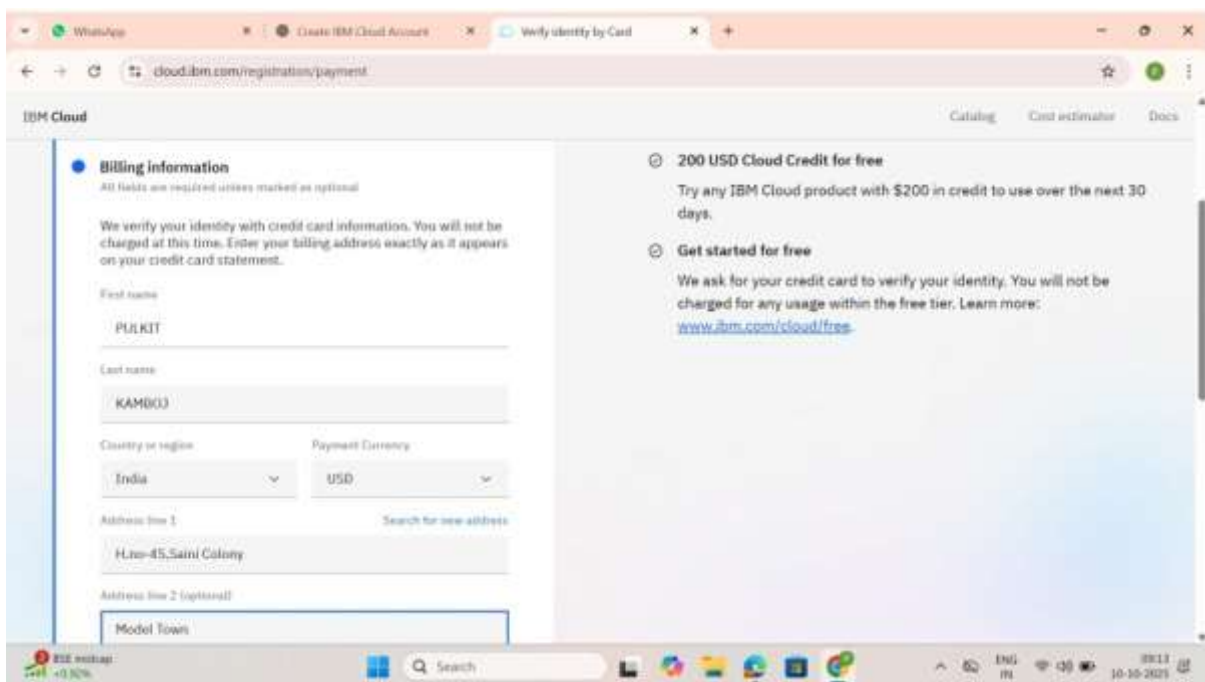

Get started for free

We ask for your credit card to verify your identity. You will not be charged for any usage within the free tier. Learn more: www.ibm.com/cloud/free.

Step 6: Provide your **credit or debit card information** (only **MasterCard** or **VISA** are accepted).

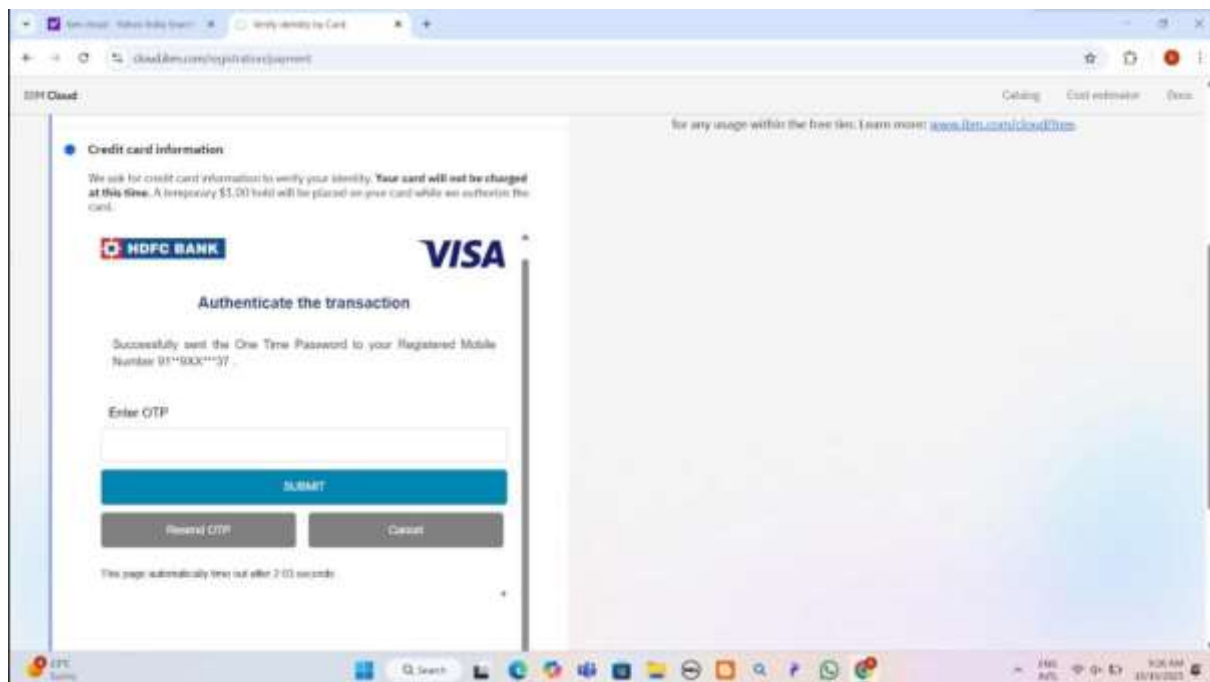

Enter **card number**, **expiry date**, and **security code (CVV)**.
Click on **Continue** to proceed.

I have used my VISA card for creating an IBM cloud Account.

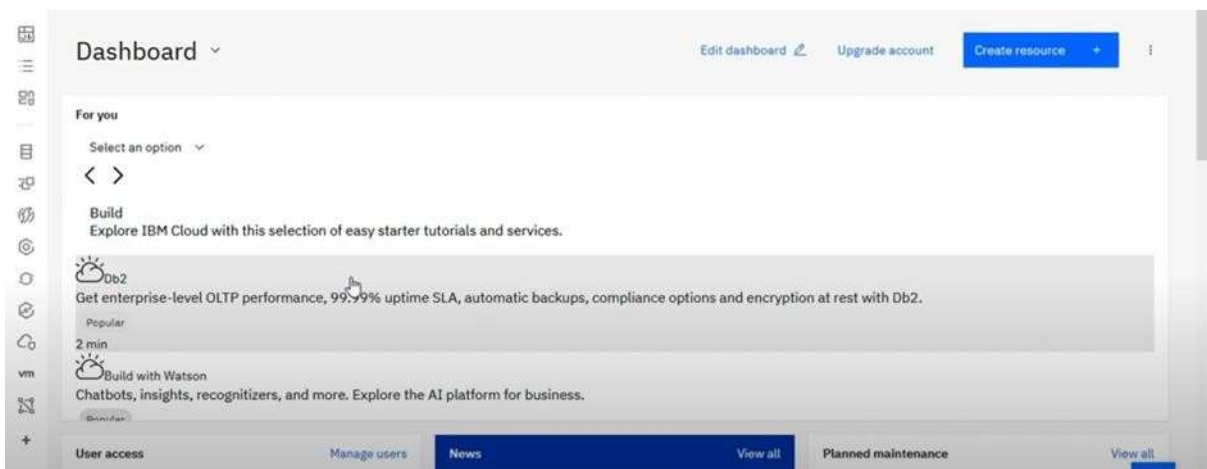

The screenshot shows a web browser window with the URL `cloud.ibm.com/registration/payment`. The page is titled "IBM Cloud" and has tabs for "Catalog", "Cost estimator", and "Docs". The main content area is titled "Credit card information" and includes a sub-header "We ask for credit card information to verify your identity. Your card will not be charged at this time. A temporary \$1.00 hold will be placed on your card while we authorize the card." Below this, there are input fields for "Card number" (containing "6522 9407 3308 9034"), "Expiry date" (containing "07/28"), and "Security code" (containing "250"). A blue "Continue" button is at the bottom. On the right side, there is a link to "www.ibm.com/cloud/free" with the text "charged for any usage within the free tier. Learn more:". The browser's address bar shows "cloud.ibm.com/registration/payment". The Windows taskbar at the bottom shows the date "10-10-2021" and time "09:11".

Step 7: Authenticate your card by entering the **OTP** received on your registered mobile number to verify the transaction.

Step 8 : Once verification is complete, your **IBM Cloud account** will be created successfully.

You will be redirected to the **IBM Cloud Dashboard**, where you can explore various cloud services, create resources, and manage your account.

Result: Successfully created an IBM SmartCloud Account using a VISA card. The IBM Cloud Dashboard is displayed, confirming the account creation.
